ANU Pulse Modules

Pulse is the main platform for ANU staff to undergo **internal training and compliance modules**.¹ All ANU staff must complete 7 probation modules. These are found under the 'ANU Staff Probation Modules' banner on the homepage.

Supervisors will need to complete 1 extra probation modules as a part of their onboarding.

To view general training offerings, these can be found on the Pulse homepage or in your 'Achievements' tab on the left panel. Depending on your role, area, and responsibilities, different courses will be important for you to complete.

For example, staff issued a purchase card will need to complete 'ANU Purchase Card Use.'

If you are unsure what you need to complete, please check with your supervisor, Work Health and Safety (WHS) Officer and local HR consultant about which modules are relevant to you.

¹ ANU offers LinkedIn Learning and Culture Amp's Skills Coach to all staff to continue to pursue online professional development. See [here](#) for more. Please visit the [Training and development opportunities page](#) for in-person courses and offerings.

<input type="radio"/>	Core Module 03: History Lives in Us Online Learning	Complete	Print Certificate

By pressing the arrow on the right, next to 'Print Certificate,' you can view your attempt history and certificate expiry date. Most Work Health and Safety (WHS) modules that focus on chemical safety and/or laboratory use will have expiry dates, requiring renewal every three to five years. Consult the WHS Handbook for more or speak to your local WHS Officer.

User and Course Settings

You will often have to complete a quiz as a module requirement. You will have three attempts to achieve a pass mark of 80 or greater on each quiz. Please note, the Pulse system struggles to register a bookmark if you leave the session. Therefore, it is strongly recommended you complete your module in a single session to save your progress.

If you need further attempts or are having issues, please contact HRD.Development@anu.edu.au.

Create your own module

If you are interested in developing a Pulse module, contact HRD.Development@anu.edu.au.

You will be prompted to complete a *Concept Brief* to be endorsed by your Local Area Delegate and the Deputy Chief People Officer.

If approved this will give you access to Kando, an in-house platform for module development.

This authoring tool has ANU branding built-in and can easily be uploaded to Pulse once a *Final Proposal and Module Approval* form has been submitted and approved.

An information pack will be provided to you with more details, once a module development conversation has taken place.

Frequently Asked Questions

1. Can students use Pulse?

Pulse is purely an ANU staff platform, noting there are some coincidental instances where HDR students can access the site. This is because they may need to complete a Pulse course for a critical and necessary purpose (i.e. must undertake Biological Safety to enter a laboratory).

As access is automatically arranged from the HR Management System when a staff member has been onboarded, students are not linked to this staff enterprise system and therefore cannot be granted access manually.

2. If I want to upload a third-party learning package to Pulse, how do I go about this?

As detailed above, you will need to submit a Concept Brief endorsed by your Local Area Delegate to HRD.Development@anu.edu.au for review and to obtain Deputy Chief People Officer endorsement. Once this has been approved, you will provide HRD.Development@anu.edu.au with the SCORM learning package. Please note, for smooth integration with the Pulse system, this should be a SCORM 1.2 package (as opposed to SCORM 2004).

3. I'm an ANU staff member, but I cannot access Pulse. How do I fix this?

First, ensure you are using Google Chrome or Firefox to access Pulse. If the error persists and you receive a 'Page isn't working error' when trying to log into Pulse, you will need to contact HRD.Development@anu.edu.au to enable your profile.

If you have any questions not addressed in this document, contact HRD.Development@anu.edu.au.
