NARU is a three minute bike ride from Casuarina beach, which is a perfect place for a picnic or walk along the beach, *please no swimming as you might encounter a crocodile or be stung by a Box Jelly fish.*

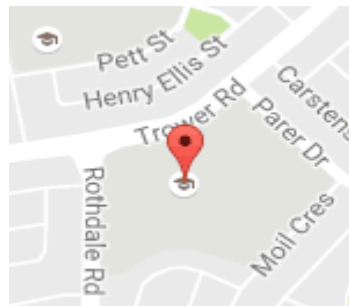

There is an undercover BBQ area with table and chairs for guests, located in the 'Breezeway' (between H Block and the ATRF). There is plenty of space, table and chairs for up to twenty guests, a perfect place for a social gathering.

Cyclone Information

The Nearest Cyclone shelter is located at Casuarina Senior Collage
61 Trower Road Moil

Emergency shelters are unique to the Northern Territory and are a direct legacy of Cyclone Tracy. Following Cyclone Tracy, selected buildings were repaired and upgraded by the Government so they could be used as emergency shelter facilities during the rebuilding of Darwin

Points to remember

- They have a limited capacity and do not guarantee safety in all circumstances
- They do not allow animals
- They are mainly staffed by voluntary personnel with a police and medical presence
- They do not provide meals or special baby needs
- They might become welfare assembly centres after the cyclone

They are used at your own risk - the Northern Territory Government accepts no liability for any loss, injury or death arising from the use by the public during a cyclone

In the event of a cyclone listen to ABC Radio 105.7
