# **THESIS CORRECTION EFORM EMAILS AND OUTPUT DOCUMENTS**

Version 1

5 October 2018

## Introduction

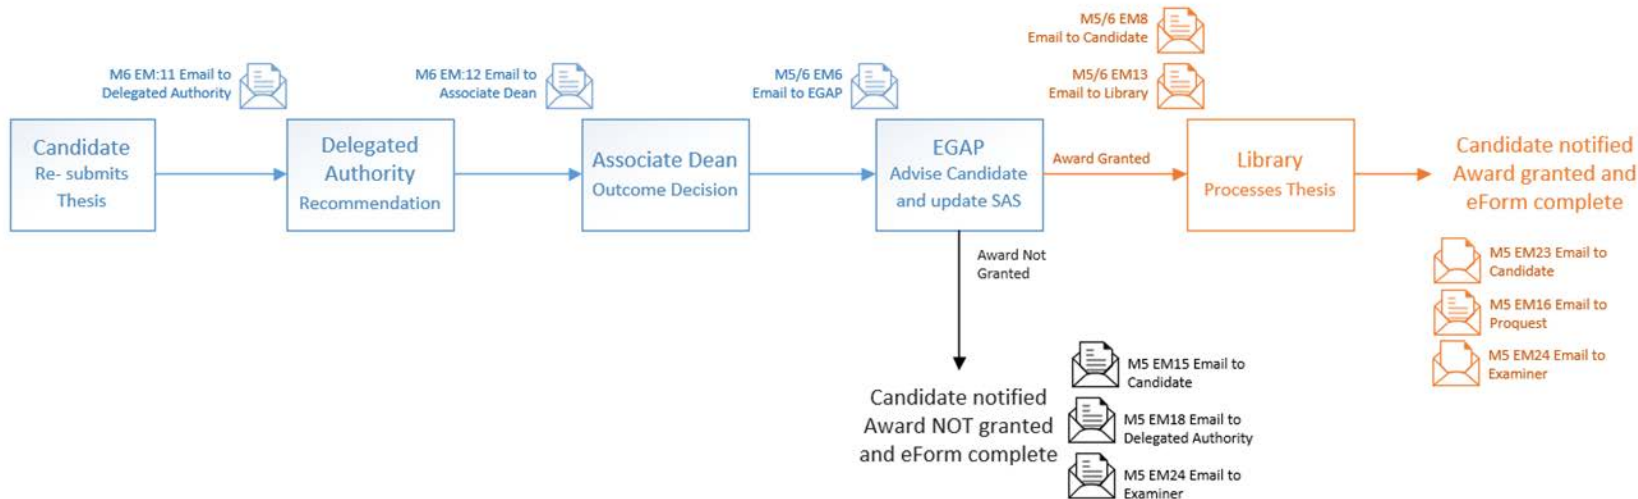

The purpose of this document is to provide detailed support information on the HDR Milestones – Thesis Correction eForm for administrators and support staff. The guide outlines the emails generated during the process and the conditions which trigger them, as well as the output documents which are created during the process. This may be referred to for trouble-shooting and end-user support.

M5 EM24. For information to Examiner CC EGAP	Sent when Candidate has or has not been granted an Award	Notification	For information: Thesis availability on ANU Open Research repository for <i>Candidate Name (UID)</i>	Examiner	eForms	• Examiner Letter

## 2 Output Documents and File Storage

The Output Documents generated by the form, and the Supporting Documents uploaded during the form process are stored in the Electronic Records Management System (ERMS). All documents are stored within the **Student File** on the system. Students cannot access the files directly but can request for a file to be retrieved by their supervisor. For detail on how to access the files, refer to: <https://services.anu.edu.au/information-technology/software-systems/electronic-records-management-system>. NOTE: The Form ID and the student ID is included in the title of each Milestone Document. For Supporting Documentation the Form ID is appended with an 'A'. These may be used to search for records within the system.

### 2.1.1 Sample Output Documents

The Output Documents generated by the eForm are built on the same template. Sections are visible or hidden depending on the type of Milestone as well as inputs provided by the users.
