

## Reporting Requirements

The ANU AEEC is registered with the following States and Territories to approve the conduct of research with animals therein: ACT, NSW, QLD, VIC, TAS and WA.

The AEEC must report to each State and Territory on a regular basis in accordance with each State and Territories' specific license conditions.

For example Committee membership changes and newly approved protocols, annual reporting on the number of animals used in research, species and research field.

The ANU AEEC reports annually to the ANU Council and meeting minutes are provided each month to the VC and DVC.

## External Reviews

The ANU AEEC undergoes a triennial review by external parties as stipulated in the NH&MRC's *Australian Code of Practice for the care and use of Animal For Scientific Purposes*, 7<sup>th</sup> Edition 2004.

The ACT Government Veterinarian conducts inspections of all ANU animal facilities every three years in accordance with license renewal procedures under the *ACT Animal Welfare Act 1992*.

NH&MRC audits at time points determined by NH&MRC.
