In our experience it helps to start by looking at where you’re at in life. While this doesn’t include all possibilities, it’s a good way to see what you’re likely to need from your cover. This might not suit everyone - the next few pages have more detail so you can choose the cover or package that fits you best.

**NEW HOSPITAL COVER CATEGORIES**

As part of the government’s private health insurance reforms all hospital cover in Australia will be categorised as either Gold, Silver, Bronze or Basic. The government has set out which treatments and services each category needs to include (as a minimum). On most of our hospital products we’ve chosen to cover additional services, above the minimum requirement, and that’s where the product includes ‘Plus’ in the name.

The new ranking will make it easier to compare different policies, so you can confidently choose the cover that’s right for you. The table below shows which category each of our suggested hospital covers fall into.

For more info on the categories and other reforms see hcf.com.au/reforms

THINGS YOU NEED TO KNOW

Info to help you make the right choice, pay lower premiums and avoid unnecessary costs.

REBATES, SURCHARGES AND INCENTIVES
Private health legislation can affect your choice of health cover, so here's some useful information on how to get your maximum entitlements and avoid unnecessary expenses.

AUSTRALIAN GOVERNMENT REBATE ON PRIVATE HEALTH INSURANCE
To help make private health cover more affordable, the Australian Government provides a rebate on your health insurance premium. The rebate is available to people with hospital, extras or ambulance cover, and who are registered with Medicare. The rebate is income tested, so your entitlement may change depending on your income and your age.

You can take the rebate as:
• A reduced premium OR
• A tax offset credit in your annual tax return.

When calculating your income be sure to include your entitlements, any special circumstances category, net financial investment losses and more. You may have to pay additional tax if you nominate an incorrect rebate tier.

We can provide you with general information to help you make the right choice, so here's some useful information on how to get your maximum entitlements and avoid unnecessary expenses.

MEDICARE LEVY SURCHARGE
The Medicare Levy Surcharge is an Australian Government initiative designed to encourage high-income earners to be responsible for their health care. It only applies if you'll earn above this year’s income threshold and don't have eligible private hospital cover.

You can avoid paying this by having eligible HCF hospital cover. If you don’t have eligible private hospital cover and fall into these income thresholds, you’ll be charged an additional surcharge on your Medicare levy when your tax return is assessed.

To view this year’s income thresholds and Medicare Levy Surcharge information, go to privatehealth.gov.au/healthinsurance/incentivessurcharges

LIFETIME HEALTH COVER
Lifetime Health Cover (LHC) is a government initiative that encourages people to take out hospital insurance earlier in life, and maintain their cover.

In some cases, you may be exempt or fit into a special circumstances category. If you don't have hospital cover with an Australian registered health fund on 1 July following your 31st birthday, and then decide to take out hospital cover later in life, you could pay a 2% loading on top of your premium, for every year you are aged over 30.

For example, if you take out hospital cover at age 40 you could pay 20% more than someone who first took out hospital cover at age 30.

The maximum loading is 70%.

For members who have switched from another fund, if your LHC loading differs to what was listed in the transfer certificate, your premiums may change accordingly.

The Australian Government Rebate does not apply to the LHC component of private health insurance. This means if you are eligible for the rebate and also have a LHC loading, the rebate won't apply to the LHC portion of your health insurance.

To find out if you need to pay the LHC loading, you can use the Lifetime Health Cover calculators at privatehealth.gov.au (and search for Lifetime Health Cover).

For more information, visit hcf.com.au or call us on 13 13 34.

PRE-EXISTINGAILMENTS OR CONDITIONS
A pre-existing ailment, illness or condition is one where the signs or symptoms existed during the six months before joining HCF (or upgrading to a higher level of cover), even though a diagnosis may not have been made. An HCF-appointed medical practitioner will examine information provided by your doctor, and any other relevant claim details.

WHO CAN BE COVERED?
Before taking out health insurance, you should understand who can be covered under your policy. You can find out more by visiting hcf.com.au/faqs, and searching for “Who does my membership cover?”

HOSPITAL COVER FOR IN-PATIENT SERVICES
Hospital benefits are payable when you're admitted to hospital for treatment. These are called ‘in-patient’ services, and only in-patient services are covered by your hospital cover.

HOSPITAL GAP
Private hospitals charge for accommodation, operating theatres, Prostheses and other hospital-related services. HCF has agreements with the majority of private hospitals and day surgeries (known as participating private hospitals) across Australia.

This means you won't pay additional costs for services covered under your policy and under our agreement with the participating private hospital (except Restricted Services). This is subject to any excess you have on your policy, medical gaps (see below) and the conditions relating to your hospital cover. For Services Not Included under your policy, you’re responsible for full costs.

HCF hospital cover will only pay benefits for in-patient services (from when you’re officially admitted to hospital to when you’re officially discharged), they don’t cover outpatient services before or after your hospital admission.

If you’re at a non-participating private hospital or a private patient in a public hospital or received Restricted Services, Minimum Benefits will apply and you may incur significant additional expenses, in addition to your excess and medical gaps. Minimum Benefits means from time to time, the Commonwealth Minister for Health sets out a rate for Minimum Benefits. HCF will pay the Minimum Benefit for a shared room and benefits for government approved Prostheses List items for these Restricted Services.

This means that you may have to pay significant out-of-pocket expenses in a private hospital.

To check if your planned hospital admission will be in a participating private hospital, please visit hcf.com.au/participatinghospitals, drop into a HCF branch or call us on 13 13 34. Please note: these agreements are updated from time to time and subject to change.

MEDICAL GAP
Medical services provided while you are admitted to hospital (like doctors’, anaesthetists’ and surgeons’ fees, and diagnostic services such as X-rays, scans and blood tests) are charged separately from hospital services. Medicare covers 75% of the Medicare Benefits Schedule (MBS) fee for these services and HCF covers the remaining 25% (for eligible services).

However, many providers charge more than the MBS fee, so you may face additional out-of-pocket expenses (known as the ‘medical gap’).

HCF has arrangements (under our Medicover or other medical agreements) with more than 35,000 doctors across Australia that help
eliminate or reduce gaps for doctors’ services for our members.

Please note: these agreements are updated from time to time and subject to change.

EXTRAS

Under HCF extras, we will pay a set amount of benefits for services, subject to annual limits. The amount of benefits will vary depending on your cover. You must pay the difference between what the extras provider charges and the benefits we pay.
