

Information for disability/accessible permit holders:

ACT Government disability permits are valid for use on the ANU Acton campus (provided that the permit is valid). If you have a valid ACT Government disability permit you do not need to obtain an ANU disability permit. Please adhere to the ANU disability/accessible parking rules if using an ACT Government disability permit on the ANU campus.

Correctly displayed ANU Disability Parking Permits allow a person to park in:

- marked accessible 'disability' parking bays
- pay or voucher parking spaces (at no charge)
- for extended times in timed parking bays
 - a maximum of 2 hours if the signposted time limit is 30 minutes or less
 - unlimited time if the signposted time limit is more than 30 minutes.
- Allocated disability parking spaces are available in various areas around the ACTON campus. Please refer to the disability access map:
http://imagedepot.anu.edu.au/fs/Parking/Disability_Map_September2019.pdf
- The permit is valid for parking on ANU campus only. Please be mindful that some disability parks outside ANU buildings are on ACT Government land and ANU Disability Parking Permits cannot be used in these areas, e.g. Marcus Clarke St or the ANU Medical School at the Canberra Hospital.
- The permit does not allow you to park in contravention of the road rules e.g. parking in loading zones, bus zones, contrary to no stopping and no parking signs, next to, alongside or over yellow edge lines or similar restricted areas.
