

A Novated Lease is one of the most cost-effective car ownership options in Australia.

nlc is proud to be one of your employer's approved novated lease providers.

As part of your employee benefits program, our goal is to help you get a better deal on your next new car. With an **nlc** Novated Lease, you can access thousands in income tax and GST savings.

The secret to saving thousands with **nlc**:

Better new car price – As one of Australia's largest car buyers, we assess over 5,000 quotes per month and get you access to our fleet buying power. We work independently, using our in-house market knowledge to help you get a better deal.

More for your trade-in – We separate your trade-in from the new car transaction so we can optimise the value of your trade. No charge, no hassle and more dollars in your pocket.

Income tax and GST savings – Your dedicated consultant will show you how to access significant income tax savings, keeping things simple and stress free. You can also save the GST on the purchase of your car, as well as on your running costs.

Save on running costs – We'll set a budget upfront to cover all of your car's running costs in one regular payment. You'll also get fleet savings for fuel, servicing and repairs.
