

Volunteers

A Volunteer Declaration form must be completed in order for the delegate to make an informed assessment of the volunteer's ability to safely perform the role and whether to accept the person as a volunteer.

Volunteers aged less than 80 years of age who are involved in authorised activities at the ANU are covered under the University's **Personal Accident Insurance Policy** for death and significant injuries sustained as a result of the authorised activity.

Volunteers may also be covered under either the **Public Liability** or **Professional Indemnity** insurance in respect of a legal liability they may incur whilst on University business. The volunteer is also covered for any liability insured by the **Employment Practices Policy** (typically claims for work place harassment).
